Personal Profile

Ihsan Mahmood is a recent graduate of a front-end web development bootcamp with a strong foundation in HTML, CSS, and JavaScript. He has a passion for technology and a desire to jumpstart his career in the IT industry. Ihsan is highly motivated and enthusiastic about pursuing an apprenticeship that will allow him to build on his technical skills and gain real-world experience.

Throughout the bootcamp, Ihsan developed a keen eye for design and user experience, as well as strong problem-solving skills. He thrives in a collaborative environment and is comfortable working independently or as part of a team. He also has experience with responsive design and web accessibility, which he believes are crucial skills for modern web development.

Ihsan is now seeking a job in web development to continue learning and expanding his knowledge. He is excited to work with experienced professionals in the industry and to gain exposure to new technologies and techniques. He is committed to working hard and contributing to a team, while also continuing to build his skills and knowledge.

Overall, Ihsan is a talented and versatile individual with a passion for both web development and IT support. He is eager to take on new challenges and apply his skills to create engaging and user-friendly websites, while also providing technical support and troubleshooting for IT issues. His strong technical skills, problem-solving abilities, and collaborative mindset make him an ideal candidate for any web developer and IT support role.
